### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with David J. Gaskey on November 9, 2004.

The claims 1 and 14 have been amended as follows:

Referring to claim 1, line 1, delete "controlling signal transmission from a transmitter" and replace with "operating a transmitter" and line 3, add in "in a test mode" after "transmitter portion".

Referring to claim 14, line 1, delete "controlling signal transmission" and replace with "operating a transmitter in a test mode", and line 2, replace "a transmitter" to "the transmitter".

***Allowable Subject Matter***

This communication is in response to applicant's Amendment After Final which is filed September 13, 2004 in the application of Morrison for a "Remote signal transmission control including compensation for variations in transmitter components" filed June 18, 2001.

The proposed amendment has been entered and made of record. Claims 1,11 and 14 have been amended to more particularly point out and distinctly claim the invention.

Applicant's amendment with respect to the pending claims 1,11 and 14 filed September 13, 2004, places the application in condition for allowance.

Claims 1-22 are allowed as evident by applicant's amendment and arguments.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submission should be clearly labeled "Comments on Statement of Reasons for Allowance."
